

Purpose-built infrastructure. Proven performance.

We're GCG Data Centers —
where expertise meets flexibility
and complexity becomes clarity.

DATA CENTERS

Why the industry trusts GCG Data Centers.

65+ Years of Experience

A proven track record across critical infrastructure sectors.

Engineered to Spec

From hyperscale to modular builds, we adapt to meet unique site requirements.

Top-Tier Product Partnerships

We source from trusted brands and maintain one of the industry's strongest supply chains.

In-House Expertise

Direct access to a team of engineers who understand real-world constraints.

Value-Added Services

We manage the behind-the-scenes details so you can stay focused on what matters most.

Repeatable Builds

Solutions that arrive ready to perform, speeding installs and reducing field troubleshooting.

Flexibility by Design

Our business model enables us to scale, pivot and adapt in real time.

Zero-Ego Collaboration

We show up, solve problems and stay committed to your success.

Offering data centers a new way **forward.**

When projects are complex and timelines are tight, having a partner who understands urgency, innovation, consistency and scale is essential. GCG Data Centers partners with Hyperscalers and COLO/MTDC installers to simplify complexity and reduce risk. From bulk cable to power whips and prefabricated builds, we deliver smarter, faster solutions with precision and flexibility.

Product Portfolio

Cable Management

Faster identification, reduced waste and easier maintenance.

Structured Cabling

Minimize troubleshooting and ensure compatibility.

Low Voltage Cabling

Practical, reliable performance for scalable networks.

Medium Voltage Cabling

For flexible routing in harsh or confined conditions.

Ladder Racks

Support for heavy cable loads in high-demand environments.

Power Whips

Custom-built, pre-terminated for plug-and-play performance.

Fiber Optic Cabling

High-speed connections engineered for long-distance.

Wire Basket Trays

Lightweight, ventilated and easy to modify — ideal for routing.

PDU's

Safe, efficient power distribution to match your site layout.

Less complexity. **More momentum.**

Value-Added Services

Design Collaboration

We work side-by-side to understand your project-specific needs.

Component Sourcing

We source and ensure compatibility with all system components.

Best-of-Breed Solutions

Prefabricated builds with top-tier brands and in-house innovations.

Labeling & Kitting

Organized and labeled solutions streamline installation.

Testing & Certification

Factory-controlled testing and rigorous QA help prevent failures.

Logistics Management

Fast on-site delivery when and where you need it.

From backbone to edge, we support your data center infrastructure with industry-leading systems and components from these top-tier manufacturers and many more.

Product spotlight

Paige GameChanger® Cable

The CAT6 that goes twice as far.

- Extended reach
- Uncompromised power and speed
- Cost-saving efficiency
- True plug-and-play

Cobra X-Flex®

Ideal for gray space environments.

- Built for performance
- Temperature tolerant
- Extreme heat ready
- UL and CSA certified safe

Power Whips

Job site ready and built for speed.

- Custom-built for performance
- In-house tested for reliability
- Clearly labeled for efficiency
- Visit our [Power Whip Configurator](#)

Connect-Air® Solutions

Dependable signal transmission.

- High-speed data integrity
- Flexible configurations
- UL-listed
- RoHS-compliant
- CSA-approved
